

# Attention Retailers

To All Store Management,

## **NO MORE THAN 2 IS THE RULE!**

Due to manufacturer regulations, no retail establishment can sell more than Two Blister Packs of ephedrine in a single transaction to a single walk-in customer. If you notice that a customer is buying a suspicious amount over a period of time, it is your responsibility not to sell that customer any more product. It is also required by law to report any suspicious activity to your local law enforcement.
